OPEN DAILY 7 to 9; SUNDAY 8am to 8pm

ROUTE 6, FAIRHAVEN 992-0305

Beware of the tides of March. Here we are two short days from Spring, according to the calendar, and the winter beach remains cold, bleak and frozen solid in the shallows on the beach. This stretch of beach fronting Angelica Avenue shows no hint of the season fast upon us. On the cover, the marsh grass is stiff as spring

wire and divided by a pool of salt water ice left by the lowering tide. In the far background, the lonely survivors of the cottages pounded by Bob dot the Point where so many cottages formed a close knit summer colony. Walking a beach is one of the quickest ways to clear the head, fill the lungs with oxygen and look to far horizons with a sense of confidence and optimism. However, we can assure one and all that anyone walking the beach in this temperature had better walk fast and be well protected or they shall surely regret it.

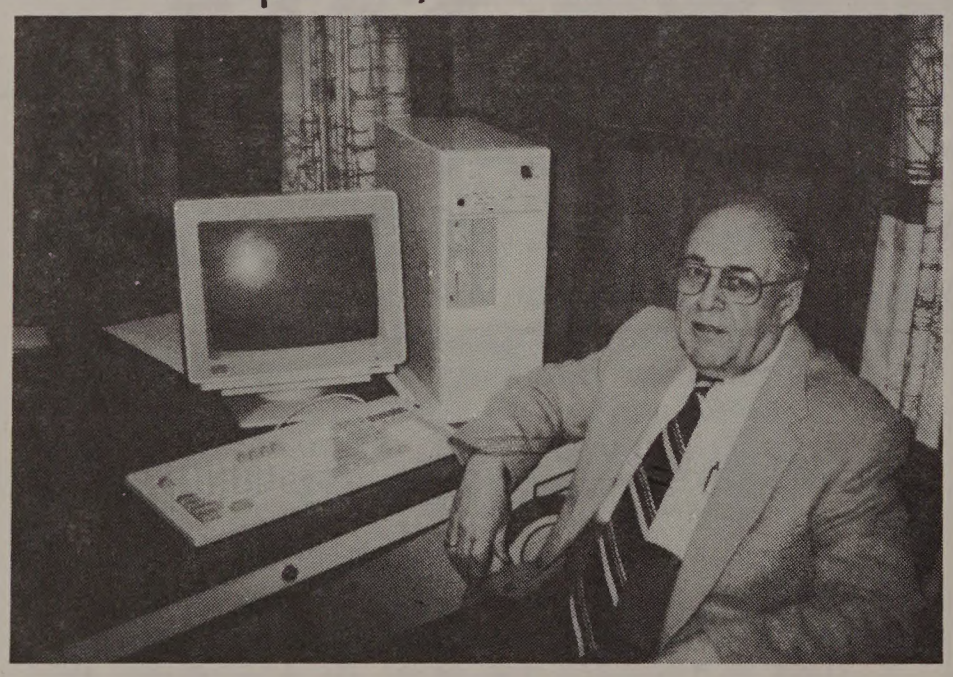
New Computer, Assessors



Mattapoisett Assessor Harvey Blanchette sits at the newly installed computer in the Mattapoisett Assessors' office. The computer will shift all of the town tax and real estate electronic recording to the assessors' office from Old Colony Regional Vocational-Technical High School where the work has been computerized to date. The convenience of the shift is expected to be a dramatic improvement in speed and convenience. Old Colony has notified outside users of their system that they will be unable to continue the service beyond the coming year. In obtaining the new machine, Assessors Robert Fay, Michael O'Brien and Mr. Blanchette have looked ahead to purchase a computer that will do their work now and into the foreseeable future. Not only that, but they have obtained capacity so that in the future Tax Collector Kathleen Briggs' office can be wired into the system so records and calculations of the tax office can be combined in this computer.

Assessor Fay is a computer expert and instructor at Old Colony, so he is already very familiar with this machine. Mr. O'Brien and Mr. Blanchette will take a course in its operation. They are confident that in a very short space of time the savings will pay for the machine.

In addition, the computer will increase efficiency and convenience in dramatic fashion. For example, in discussing property, a floor plan of a building could be put on the monitor instantly so that all of the details would be visible together with dimensions and other details.

The new computer will be complete when a printer arrives and is installed. It is ready now to accept and display data.

Ms. Mello include F.A.T., a videotape on learning disabilities and accompanying guide from PBS, and "Roots and Wings", an audio-cassette of a presentation by Mr. Lavoie.

An area of the Children's Corner has been set aside for books and materials on parenting, education, learning problems, activities, and other issues related to child-rearing.

Ms. Mello and Debbie Bacchiocchi volunteer their time every Wednesday to lead story hours with pre-schoolers in the Plumb Library. According to Susan Pizzolato, Library Director, "The town library is very fortunate to have such knowledgeable and dedicated individuals volunteer on behalf of children in Rochester. They understand the value of reading to young children and love being with them. The children obviously love story hours."

Donations to Plumb Library

Thanks to Story Hour Volunteer and preschool teacher Carolyn Mello, the Joseph H. Plumb Library is further developing its Parent Resource Collection. Ms. Mello recently donated a videotape of Richard Lavoie's talk on "Positive Disciplining" at Old Rochester Regional High School, as well as other audio-visual materials by Mr. Lavoie. These materi- may be borrowed from the library by any area resident.

Mattapoisett Board of Appeals

DECISIONS ANNOUNCED

In cases heard by the Mattapoisett Board of Appeals, it was announced by the board that they will grant three Special Permits and deny a fourth.

The board denied the application of Joseph and Shirley Battistelli to change the property at 61 Fairhaven Road from a retail store to a redemption center. This property is in the R-30 district. The initial hearing in this case was held November 21, 1991 and has been continued twice due to a need for additional plans to show parking spaces and traffic flow patterns. Because the nature of the business will be a "drop-off" one with large numbers of cars coming in to redeem cans and bottles and heavy trucks coming to make pick-ups, parking and traffic flow were of paramount importance to the board. Town Safety Officer Paul Magee expressed his concerns as well in a letter to the board.

Although the applicant presented several parking plans and revisions, the board re-

mained concerned that there would be inadequate parking for customers and employees, lack of parking for customers when trucks were making pick-up stops, and too great an increase in traffic flow onto a busy state highway. Because the applicant could not remedy the board's concern, the application was denied.

A Special Permit was granted to Robert J. and Alice B. Nichols for expansion and enlargement of an existing lawfully non-conforming structure damaged by Hurricane Bob at a property located on 18 Harbor Road. The applicants wish to rebuild and enlarge their deck which is attached to the back of a house built before current zoning requirements. The board found that the changes in the deck would not increase the non-conforming nature of the property. The septic system was inspected by personnel from the office of Arthur C. Thompson and it was found to be adequate for the existing dwelling. The board found that change in the structure would not necessitate changes in the sewage system. Thus, the permit was granted provided water saver fixtures and low flush toilets be installed and the septic system be pumped twice a year.

Leonard Sollitto of Boston was granted a Special Permit for the rebuilding of a law-

fully non-conforming structure which had been destroyed by Hurricane Bob. The new house will be located on the same footprint on property located at 5 Bay Street with a 198 square foot increase in the floor plan. The new structure will also be elevated to conform to existing regulations. The property is located in the W-30 (waterfront) district. The previous structure had been a two bedroom house and likewise met sewerage requirements for a house of that size. The board was concerned that a proposed study in the new house would be used as a third bedroom. Therefore, the Special Permit was granted providing that the existing septic system be enlarged to meet three bedroom house requirements and that water saver fixtures and low flush toilets be installed.

The board granted a Special Permit to Virginia L. Barry of Marion, MA for the razing of an existing lawfully non-conforming structure and building a new dwelling on an elevated foundation with no changes to the number of currently existing bedrooms. The property is located at 62 Mattapoisett Neck Road and is in the RR-30 zoning district. Plans were submitted to the board by Arthur C. Thompson, Inc. and showed the new dwelling to conform to existing setback requirements of the Zoning By-Law. It will have 912 square feet of interior space and be elevated eighteen feet above mean sea level in accordance with current floodplain requirements.

An onsite inspection of the septic system was undertaken by Arthur C. Thompson, Inc., Dale Barrows, Agent for the Mattapoisett Board of Health, and Floyd Taylor of Rochester Cesspool. Their report

concluded the system was functioning properly from both a distribution and a hydraulic standpoint. Overall condition of the system was found to be excellent. Accordingly, the Special Permit was granted providing that the number of bedrooms in the new dwelling does not exceed two and that water saver fixtures and low flush toilets be installed.

A Special Permit issued by the Board of Appeals relates only to the Zoning By-Law of the town. It is not permission to build, nor is it permission to install sanitary facilities, plumbing, wiring, or the like. Necessary permits must still be received from the Building Inspector, Wiring Inspector, Board of Health and all other relevant officers of the town.

for Moms with school-age children....the children will be lovingly cared for while Moms have a Coffee Break and get some tips on Children's Books from children's author Barbara Davoll. In addition, Barbara will share some thoughts on Discipling and Disciplining Children.

Barbara Davoll wrote the popular Christopher Churchmouse series and also presents seminars on family living with her husband, Roy, who is on the staff of World Life, Schroon Lake, New York. The Christopher Churchmouse Classics include twelve books, written by Barbara Davoll and illustrated by Dennis Hockerman, which feature the adventures of Christopher, based on verses in the Bible. Veterans' Update

EARLY PAY-OUT GI LIFE INSURANCE DIV.

The Department of Veterans Affairs (VA) has announced that for the first time since 1977 the payment of 1992 dividends to veterans' life insurance policyholders will be accelerated.

In announcing the decision, VA Secretary Edward J. Derwinski said, "Accelerating these payments means that veterans won't have to wait until the policy anniversary dates to get their dividends. The result will mean that more than half a billion dollars will be injected into the economy."

The decision affects some 1.6 million veterans holding U.S. Government Life Insurance and National Service Life Insurance policies who have the "cash option" and receive an annual dividend check. Policyholders with anniversary dates (the date the policy was issued) in the months of February through December can expect to receive their dividend payment in early February rather than on their policy anniversary date. Approximately $560,000 will be distributed.

George Shearing & Big Band

TO PERFORM AT ZEITERION

George Shearing and the BBC Band salute "The Age of Swing" at New Bedford's Zeiterion Theatre on Tuesday, March 31st, at 8:00 p.m. (The concert was originally scheduled for Monday, March 30.) New Bedford Institution for Savings (NBIS), a longtime supporter of the theatre, is sponsoring this Big Band event which "The London Stage" called "An experience that none at the Royal Festival Hall will ever forget!" This is the BBC Big Band's first-ever tour of North America.

A favorite at the Zeiterion, George Shearing enjoys an international reputation as a pianist, arranger and composer. Equally at home on the classical concert stage as in jazz clubs, Shearing is recognized for inventive, orchestrated jazz, having written over 300 compositions, including the classic, "Lullaby of Birdland", which has become a standard.

Seeing the Universe

ASTRONOMER TO LIMN THE UNIVERSE IN TALK AT UMASS DARTMOUTH

"How much of the Universe do we see?" is the subject of a free, public lecture at 7:30 p.m. March 30th at the University of Massachusetts Dartmouth.

Dr. Morton S. Roberts, a senior astronomer at the National Radio Astronomy Observatory (NRAO), will speak in Room 227 of the Science and Engineering Building. Parking is in lot 13. His talk is sponsored by the American Astronomical Society Shapley Lectureship Fund, and UMass Dartmouth's Alumni Association, Physics Club and Sigma Xi Society.

Dr. Roberts will explore recently uncovered evidence that the Universe may contain far more matter than previously thought. Some of this matter may be of a radically new form unknown on earth. If confirmed, the presence of such matter would probably affect current ideas about the birth and ultimate fate of the Universe.

Dr. Roberts, who received his Ph.D from the University of California at Berkley, joined the staff of the NRAO in 1964. He is an authority on the composition, structure, and evolutionary history of galaxies including the Milky Way system. His training and work have involved both optical and radio techniques. The American Astronomical Society made a film about his research activities for distribution to high schools and colleges.

Second City Touring Co.

SPECIAL BRAND OF COMEDY

The Second City National Touring Company is bringing its special brand of comedy to New Bedford's Zeiterion Theatre on Saturday, March 28th, at 8:00 p.m. Over the years, this Chicago comedy troupe has included such famous performers as Dan Aykroyd, John Belushi, Alan Arkin, Valerie Harper, Bill Murray, Martin Short, Gilda Radner and a host of others.

Taking its name from A. J. Liebling's derisive profile of Chicago in "The New Yorker", The Second City opened in 1959. Since its beginning, the company has received praise from the press including Time Magazine which called it "a temple of satire" and The New York Times which reported, "The entire recent tradition of American theatrical satire can be summed up in three words: 'The Second City'." In its home city, Chicagoans packed the place every night to experience the company's innovative brand of entertainment. As its reputation spread. The Second City formed other resident companies and a Touring Company.

The concept of The Second City continues to include six or seven actors who enliven a stage with topical comedy sketches. Using few props and costumes, punctuating scenes with original music, the ensemble creates a slice-of-life environment, lampooning our modern lives - political, social and cultural. The Second City develops all of its materials in a performance situation, improvising on ideas suggested by the audience during improvisational sets held nightly after the regular show. Then, by refining, culling and amplifying the ideas during rehearsals, the finished pieces become the next revue. The Chicago theatre has averaged two or three revues a year since its opening.

provisation-rooted comedy to television, The Second City first broadcast its lively sketches in 1963 in England. In 1976 the Canadian Second City began production of its own series, SCTV, a satirical look at a day in the life of a 'typical' television station.

The series was also distributed to 55 U.S. cities and syndicated throughout Canada. In 1981 NBC picked up the SCTV show for late Friday night airing, and the cast - including John Candy, Joe Flaherty, Eugene Levy, Andrea Martin, Rich Moranis, Catherine O'Hara and Dave Thomas - received wide acclaim.

In 1992, thirty-two years after its inception, The Second City is still the pace-setter in improvisational comedy. With five touring companies covering the U.S. and Canada year-round the tradition continues.

Tickets for The Second City are $10.00, $14.00 and $18.00; senior/student $2. discount; group rates available. Tickets are available at the Zeiterion Box Office and are also available at all Ticketmaster outlets or by calling Ticketmaster in Mass. at 1-931-2000 or in RI at 1-331-2211.

The Zeiterion Theatre, a non-profit performing arts center for southern New England, is located at 684 Purchase Street in historic, downtown New Bedford. The theatre is wheelchair accessible.

BOARD OF HEALTH - ELECT DR. DAVID ROBINSON

Dear Friend, I am writing to you to inform you that my name will appear on the election ballot for the position of BOARD OF HEALTH for our upcoming town election, TUESDAY, APRIL 7, 1992. I am asking you to inform your friends and neighbors who are registered voters of Mattapoisett of my nomination. You are welcome to call upon me at any time to speak with me or arrange to meet with me.

As a Mattapoisett resident for 10 years, I am acutely aware of the public health and coastal environmental issues facing our town. A sound knowledge of subject matter in these areas is most essential for this position. As a doctor, and possessing an undergraduate degree in the science of biology as well, these areas have been studied diligently, and afford me the capability to apply this knowledge, appropriately, within state and town regulations, with the best interest of Mattapoisett closely in mind. The following synopsis will allow you to familiarize yourselves with my credentials.

Again, your supportive vote for me, DR. DAVID ROBINSON for the BOARD OF HEALTH on TUESDAY, APRIL 7th is your support for ensuring our town's coastal assets remain uncompromised, and our public health issues meet with clear decisions.

Thank you for your time and consideration.
Sincerely, David W. Robinson

is sponsored by VASE (Volunteers at Sippican Elementary).

Recently, early awareness and planning have received much attention for their potential to increase the percentage of students attending postsecondary education, as well as raising the aspirations of those who do. Rising college costs and shrinking aid packages have raised concern about students' ability to access postsecondary education. Included in the presentation will be information on academic and financial planning.

The presentation is open to parents of elementary school children from Marion, Mattapoisett and Rochester. There will be no financial product promotions. Presenters will be Susan Zartman, Guidance Counselor at ORRHS, and Robert Hicks, Assistant Superintendent of Schools.

Parents may register by calling Mary Sylvia at the Superintendent's Office (758-2772) before March 27th, or, for Sippican parents, by sending in the registration slip in the next issue of VASE Vibes.

BATTER UP
FOR READING AND AIDS RESEARCH

All students at Old Rochester Regional Junior High School will be participating in a motivational reading project, beginning with the celebration of National Middle Level Education Week, March 16-21. All students will receive a sponsor sheet and will be sponsored for a certain number of pages to be read during the contest. Parents, friends and relatives may pledge money to be donated to AIDS research. Every 25 pages a student reads earns that student a base; four bases earn the student a run. Top run earners have the opportunity to win the two Red Sox tickets, or a $25.00 gift certificate to the Silver City Galleria. Everyone participating who earns both runs and pledges for AIDS research will enjoy a cookout and field day at the culmination of the event. Join our school in reading more, and in raising money for AIDS research.

SHADOW PROGRAM

If your child is considering applying to Old Colony Regional Vocational-Technical High School but cannot make up his/her mind the "Shadow Program" may be helpful.

The "shadow program" is designed so that a student may spend an entire school day at Old Colony. The eighth grader is matched with an upperclassman in the shop of the student's choice.

According to Paula Simmons of Old Colony's Guidance Department, "the shadow program allows the child to experience first-hand a typical day in a vocational-technical program. It may help a student to decide whether or not Old Colony is an appropriate educational option."

In order to participate in the program an eighth grader should contact their guidance counselor and express their interest in shadowing for a day. The shadow program will be available through April. Students residing in Acushnet, Carver, Lakeville, Mattapoisett and Rochester, as well as those in Freetown are eligible to partici-

STUDENTS VISIT CUTLER MEDICAL CENTER

Old Colony Regional Vocational-Technical High School Health Careers students visited the Cutler Medical Center at Fort Devens in Ayer recently. The students toured the facility and spent time in the various departments including the pediatric, radiology, and physical therapy units. They also made stops in the operating and emergency rooms, visited the pharmacy and equipment repair rooms.

Students were told about the benefits and opportunities the military service offers with emphasis on careers in the health fields.

The group was invited to visit again with individuals spending a full day in a specific department of interest to them.

Dear Mattapoisett Voters: I know most of you know who I am from seeing me around Town, at Town Meeting, checking out the Town Dock and especially at Town Hall. I am running again for another 3 years on the Board of Health.

I am looking forward to another term as there are so many items on our agenda that need the expertise of a veteran member like:

(1) Seeing that the homes are rebuilt and repaired in our beach communities with the proper safeguards to protect the environment.
(2) The maintaining and capping of our present landfill and the ever important opening of the second half of the landfill for the future needs of the Town.
(3) Expanding our sewer system now that we have the added capacity of the Fairhaven plant, and
(4) Maintaining and protecting the Town of Mattapoisett as it should be by having lived here for 30 years, knowing and loving the community, and participating in as many Town functions and committees as possible.

At the present time the Town of Mattapoisett cannot afford to lose the dedication and expertise that you know I possess - so please on Tuesday, April 7, 1992 vote for Daniel C. Lee, Jr. for the same consistent, uncontroversial, hard working member of the Board of Health that you are familiar with and deserve. This type of commitment you have received for the past 18 years I have been a member.

I have always been available, as all of you know, whether by telephone, stopping by my home or talking with me any time you see me, and I will continue to do so.

Thanks in advance for keeping the continuity going on our very fair, dependable and hard working Mattapoisett Board of Health. Sincerely, Daniel C. Lee, Jr.
